

Grassroots Efforts

In recent years, conservation districts have demonstrated the clout they can muster when they pull together and work to accomplish common objectives. Now we need to build on that success as we engage in a broader range of policy and program issues.

In order to capitalize on the momentum we are building and educate decision makers, we are asking for your help. Grassroots efforts must be supported by the districts, the land users who utilize the SWCD programs, and our partners!

You can help advance the cause of conservation in your county by becoming involved in the legislative process, as well as the conservation community. So join our team today by signing up to receive legislative alerts from OFSWCD by downloading the "Help Your Soil & Water Conservation District Work for You" brochure, complete, and mail to OFSWCD, PO Box 25418, Columbus, OH 43224!

You can also join our team by emailing us at: info@ofswcd.org
