4:45 - Kid's Arrive from Tour

Join us at the “Butterfly House” for a spectacular encounter with hundreds of live butterflies from North America, Central America and Asia in a beautiful, indoor garden setting. You will also enjoy visiting the air conditioned gift shop while at this stop.

Your taste buds will be satisfied at the Whitehouse Inn with a delectable buffet lunch that you will enjoy in air conditioned comfort!

We will “grind through time” at the Historic Isaac Ludwig Mill and travel back through time with “The Canal Experience”. Living History characters share educational and entertaining stories during both of these 45 minute tours. At the Isaac Ludwig Mill, water power is still used to saw logs and grind grain. The structure is one of three remaining from the former canal town of Providence. During the Canal Experience you will actually travel on a mule-drawn canal boat on an original section of the Miami and Erie Canal.

Delight in the lovely air conditioned gift shop before returning to the French Quarter. Just a reminder.....Come prepared for *any* type of weather: umbrellas for rain, and hats and lotion for protection from the hot sun. Be prepared for bees since we will be touring their natural habitat.
