## Featured Speaker Joel Salatin

One of America's most dynamic and innovative small farmers. A third generation farmer.

Salatin promotes food production that is environmentally & economically enchanting for both producer and consumer. In addition, he is an advocate of responsible consumer choices in food buying.

He will be speaking on "Farming for profit, production, and pleasure; Diversifying for profit, production, and pleasure; Creating the farm your children will want and Making room for the next generation."

Salatin will be speaking at 11:00 am and 1:00 pm. "The Omnivores Dilemma" is a book about Salatin.
